# About Us

Durotech Industries was founded in 1977, as a manufacturer and supplier of waterproofing technologies for the waterproofing industry. Durotech products are used for waterproofing and surface protection in large commercial as well as residential buildings for sealing of wet areas, roofs, decks and other surfaces.

Durotech range of products are proudly manufactured in Australia providing high quality and durable protection against moisture and weather damage.

Combining the passion, technology and specialist knowledge over the years Durotech Industries continues to lead the market in promoting and supporting a culture of best practice in waterproofing and constantly providing the most updated and innovative waterproofing technologies.

This is reflected in Durotech's own philosophy and proven expertise in providing high-quality and durable waterproofing solutions.

We look forward to working with you and meeting your waterproofing needs with quality and excellence.

# What We Believe In

## Vision

To deliver high quality, durable waterproofing solutions to clients in Australia and Globally. To be the market leader in the provision of high quality, durable waterproofing solutions and to deliver exceptional results for all our customers, our communities and the environment.

## Mission

Durotech Industries delivers high quality, durable and sustainable waterproofing solutions for architects, specifiers, builders, distributors as well as other end-users that want confidence in the integrity of waterproofed areas, without leaving a large carbon footprint.
