

DUROTECH SEAM TAPE

MULTI-PURPOSE RUBBERISED ASPHALTIC TAPE

The Durotech Seam Tape membrane consists of a 100mm wide x 1.5mm thick rubberised asphalt membrane laminated to a polyethylene film reinforcing. A removable release paper protects the adhesive membrane face until removed during installation.

Key Benefits Summary

• Effectively seals HDPE liner face of Durotech products.

Usage/ Purpose

 Durotech Seam Tape is used primarily for sealing the seams of Durobentonite 100 for applications when floodtesting is desired. It is used on all seams of Saltwater applications. The inherent adhesive and waterproofing properties of the rubberised asphalt membrane effectively seals the HDPE liner face of Durobentonite products to render the bentonite a secondary back up.

100mm x 23m

TECHNICAL INFORMATION

Physical Properties	Value	Test Method
Tensile Strength	250 psi 1723 kPa	ASTM D-412 (c)
Elongation	350%	ASTM D-412 (c)
WVT at 27°C	0.1(max)*	ASTM E-96(B)
Peel Adhesion	Note #1	
Pliability	Passes @ -32°C	ASTM E-96(B)
Burial (16 weeks)	Unaffected	GSA-PBS 07111
Hydrostatic head (*gr/sq.ft/hr./in.Hg)	45m min.	

LIMITATIONS:

 Not recommended in areas where membrane will be subject to continuous exposure to sunlight. Optimum results are obtained when tape is installed above 5°C and below 32°C.

INSTALLATION

Preparatory Work:

Wipe HDPE surfaces of Durobentonite membrane clean with a soft cloth. Use cleaning solution if needed. Make sure surface to which Durotech Seam Tape is to be applied is clean and dry. Temperature should be 5°C for best results. Roll press the tape firmly into place using a hand roller.

Procedure:

Unroll tape and place into position. Working from one end, remove 300mm of release paper and press into place. Once tacked into place at one end, remove remaining release paper while hand pressing the tape into place. Take care not to stretch the tape. Finish by roll pressing the tape firmly into place using a hand held metal roller. For complete details, refer to applicable detail booklet.

Floor Testing:

Plug drains and provide necessary barriers to contain flood water. Flood deck with 25mm head of water and allow to stand for one hour. Check for leaks and immediately make repairs if required. Retest after repairs have been made, allow to stand for 24 hours, then make repairs if required.

FOOTNOTES FOR TECHNICAL DATA :

• Durotech Seam Tape is applied over the seam of Durobentonite 100. Durobentonite 100 should be wiped clean and free from dust or moisture.

STORAGE :

Store in dry area.

SHELF LIFE :

Durotech Seam Tape has an indefinite shelf life.

HEALTH & SAFETY PRECAUTIONS

The Material Safety Data Sheet (MSDS) must be read and understood prior to use.

GUARANTEE/ WARRANTY

Durotech products are manufactured to rigid standards of quality. Any product which has been applied (a) in accordance with Durotech written instructions and (b) in any application recommended by Durotech, but which is proved to be defective, will be replaced free of charge.

Any information provided by Durotech in this document in relation to Durotech goods or their use is given in good faith and is believed by Durotech to be appropriate and reliable. However, the information is provided as a guide only, as the actual use and application will vary with application conditions which are beyond our control. Durotech makes no representation, guarantee or warranty relating to the accuracy or reliability of the information and assumes no obligation or liability in connection with the information. To the extent permitted by law, all warranties, expressed or implied are excluded.

The information provided in this data sheet is correct at the time of printing (albeit is subject to change at any time) and is intended to give a simple description of the product and its capabilities. In practice, the substrate, intended surface to be treated and environmental conditions vary widely, making it essential for the user to determine the products suitability for a particular application and to ensure that the product is not used beyond its physical limitations. If in doubt contact the manufacturer. The product will perform as described herein provided it is applied in accordance with the manufacturer's instructions as stated in this data sheet and provided that the building and installation is structurally sound and the application is carried out competently. Durotech terms and conditions of sale apply.
