

Durofabric Butyl Square

Self-adhesive butyl floor sleeve for a permanent sealing of floor drains in combination with sealing systems under tiles in wet rooms.

Properties

Self-adhesive watertight, easy to handle butyl floor sleeve. The sleeve is made from butyl rubber with polypropylene fleece coated. This material basis causes an excellent bonding with almost any waterproofing materials used under tiles extending over the entire surface of the sleeve.

Applications

Durofabric Butyl Square is used to permanently waterproof ground drains. The packing is complete embedded into the sealing compound.

Technical specifications

Total measurements	370 x 370 mm
Measurements butyl	300 x 300 mm
Thickness butyl	1.0 mm
Temperature resistance	-40°C to +70°C

Preparation of the substrate

The preparation of the surface depends on the respective waterproofing system used.

USE

Remove the protective sheet from half each and press the packing by and by onto the surface. Now remove the second half of the foil and press the sleeve completely onto the surface. Can be instantly coated with waterproofing compound.

Information on further processing

Solvent-free adhesives and coatings may be applied directly onto the Durofabric Butyl Square. Before applying further products a compatibility test has to be carried out.

Cleaning of tools and equipment:

Tools and soiled areas should be cleaned immediately after use with water.

Storage

Durofabric Butyl Square can be used for a period of at least 12 months when stored in a cool and dry period.

Supplied as

10 pieces / carton

Further units available on request.

Disposal

May be disposed of as building site waste.
